

RENSSELAER 2013

CLASS UPDATE

The 2013 Alumni Class Council is providing this update in lieu of our canceled gift unveiling. Although the Rubik's Cube is not complete in time for this weekend's events, stay tuned for a future announcement and invitation to join the celebration.

We hope you'll enjoy the weekend and continue to keep in touch.
Brian Nock, Stephen Nock, William Schmitt, Kenley Cheung

GIFT

Our class gift, a functional Rubik's Cube measuring over six feet tall, will be completed later this fall and installed in the lounge area at the end of the DCC Great Hall.

Members of the class selected this gift during our Junior year, with design plans developed throughout Senior year. The cube has been designed by Sam Seifert '13, with the support of Katie Manz '13, Class Gift Chair, and the Class Council.

After an early prototype was built on campus this spring, the final structure is being constructed by Nelson Bruns '10.

NETWORKING

Catch up with old friends and make new connections this weekend. Check out regional events in your new hometown - alumni.rpi.edu/chapters
Send personal and professional updates for the Rensselaer magazine.

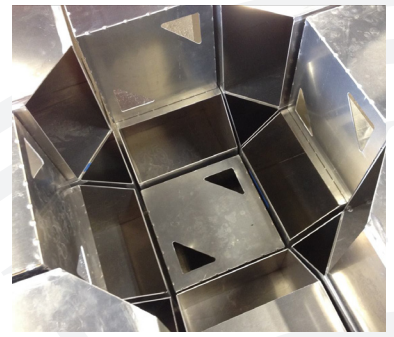

THIS WEEKEND

FRIDAY - DRINKS IN THE PUB

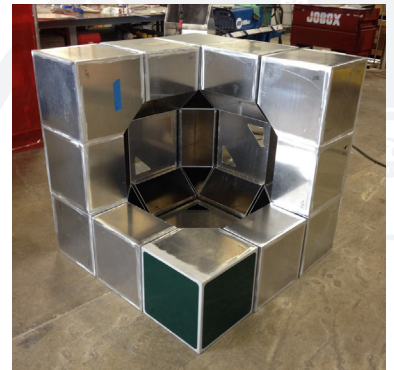

Join us in the Rensselaer Union Pub at 8:00 p.m. on Friday, October 4 for drinks and socializing

SATURDAY - FANFEST

Ride on the Ferris Wheel at Saturday's FanFest at ECAV

Made out of rolled aluminum, the structure is both rigid and light weight.

Each individual cube measures 15 inches per side, weighs about 14 pounds, and will have a painted finish.

The final cube will have over 2000 individual parts!
